

**Manzanita Village Presents...**  
**RAINWATER HARVESTING: BERMS & BASINS**  
**By Andrew Millison**

Andrew Millison is an avid water harvester and permaculture gardener who has taught at Prescott College and the Ecosa Institute, and now teaches Permaculture at Oregon State U.

Learn about active and passive water harvesting systems appropriate for our area, see how to build a berm-and-basin water collection system, and participate in the installation of a rainwater catchment cistern. Leave with information on how to design and build your own passive collection system.

Continental breakfast and lunch will be served both days.

This is a hands-on workshop which involves digging, lifting and bending. Wear closed-toe shoes, hats, sunscreen.

**WHEN:** April 25-26, 2009  
**WHERE:** Manzanita Village Cohousing  
**COST:** \$50 for 2 days (\$35 students) includes meals and materials. Participants will receive a copy of *Rainwater Harvesting for Drylands and Beyond (Vol.2)*  
**PRESENTORS:** Andrew Millison and ???
